*TricomVoIP – Click2Dial: Yeastar Cloud PBX setup*

---

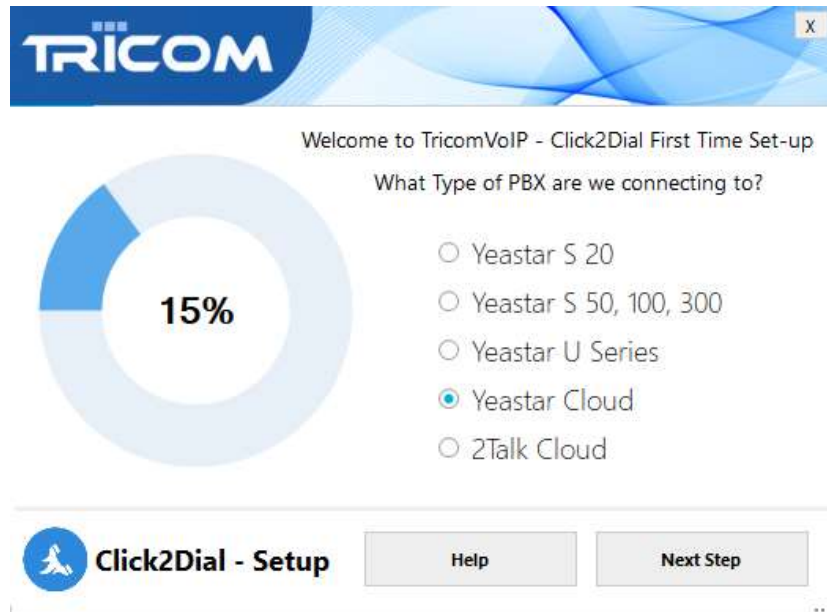

1. Download TricomVoIP-Click2Dial from: [www.TricomVoIP.co.nz](http://www.TricomVoIP.co.nz)
2. Install - Instructions: <http://tricomvoip.co.nz/instructions/Click2Dial-Install.pdf>
3. After download, run as administrator

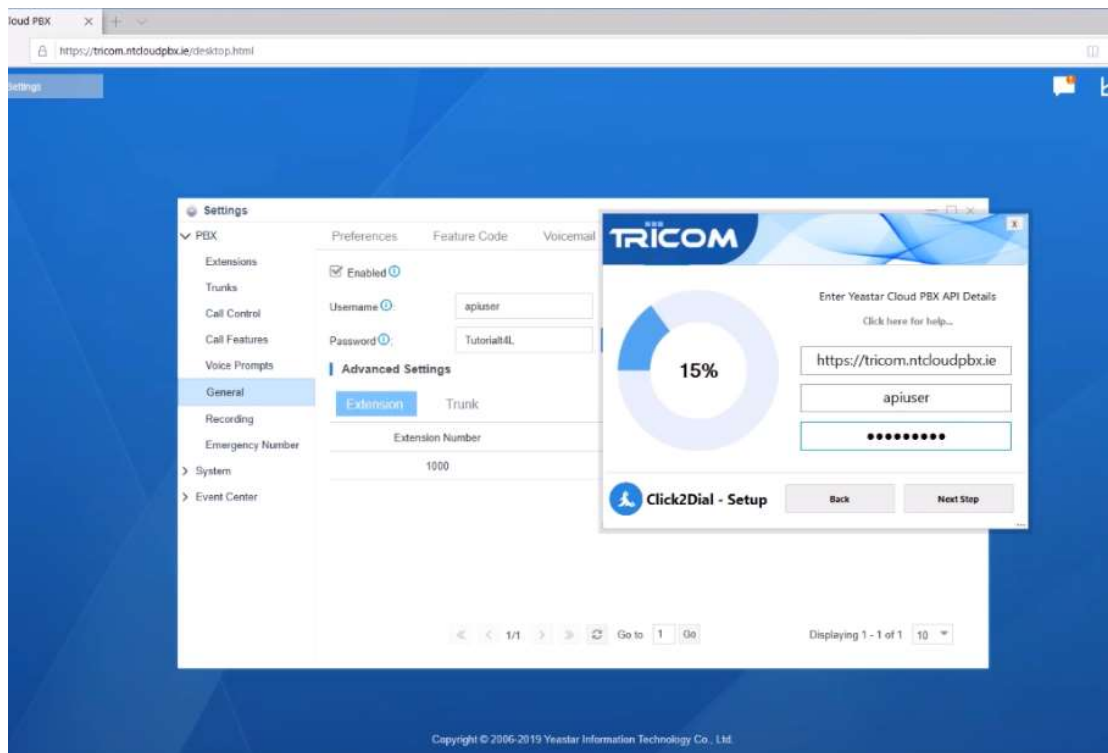

4. Click 'Yes' on the following prompt.

5. Select 'Yeastar Cloud' as PBX Type

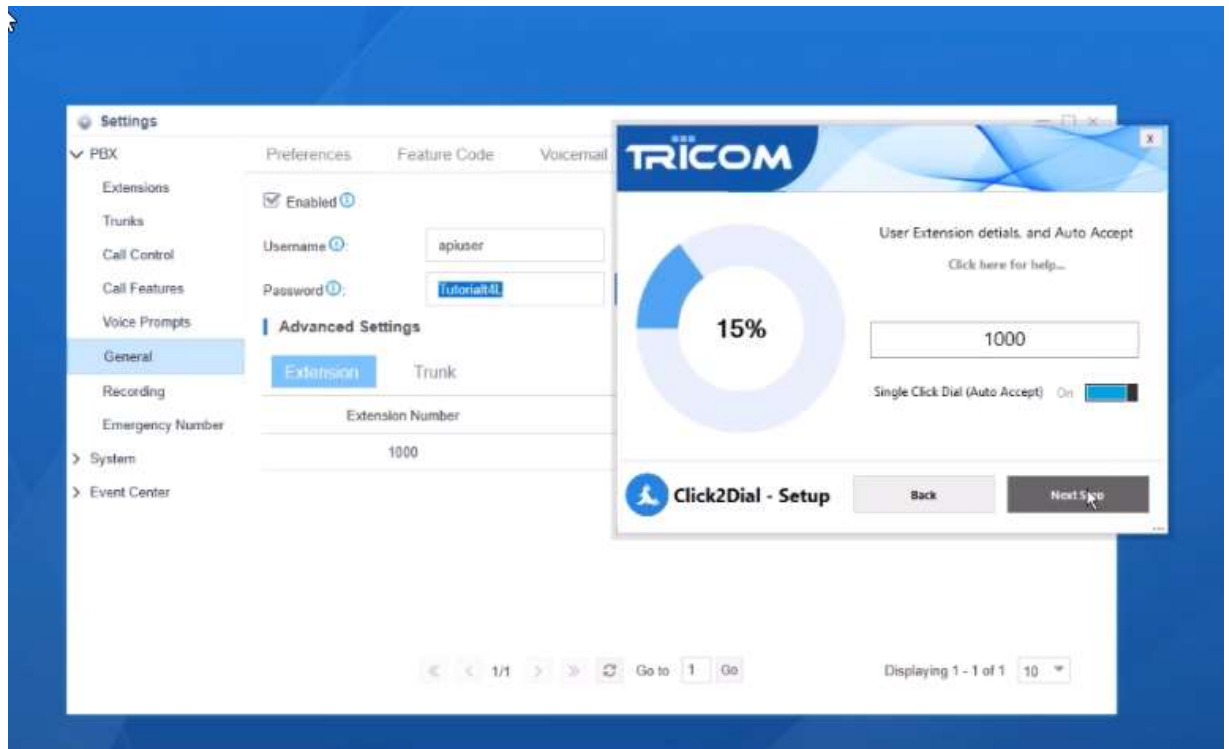

6. Open a browser, log into your PBX. Enter [Settings] -> [General] -> [API tab] and enter the information into TricomVoIP

7. Click Next Step – Setup will verify the information.

8. Enter your Extension number

9. (Optional) turn on Single click dial. (auto accept)

10. (Optional) enter a number to test dial.

11. Save and Close.

**Success! Basic Click to Dial enabled, this will work with Edge. To get click to dial working in Chrome, Firefox an Extension is required. There are tutorials on each browser located at:**
